NOTIFICATION – 100/2014

It has been observed that many requests are being received from the NIOS learners that their photograph either on identity card or on passing documents is not correct and hence, the same may be corrected. In some cases, it has also been observed that despite the fact that learners have been instructed to affix not more than 6 month old photograph but they are affixing quite old photograph. Such mistakes are creating the problems not to only learner but to the NIOS also.

To address these problems at initial level, it has been decided that from next cycle of admission which will start from 16th March, 2015, the photograph to be affixed on application form must bear the name of the learner in capital and date of the photograph taken. The same will also be incorporated in the next prospectus.
